

## QID™: Quick Intruder Deadbolt

### *Secure The Students At The Press Of A **Button***

*The Quickest & Most Secure Way To  
Protect Our Children In Their Classrooms*

#### **Applications:**

Schools  
Higher Education  
Offices

**Meets Department Of Homeland Security  
#1 Recommendation To Quickly Lockdown Classroom Doors Without A Key!**

QID™ | Applications

- Schools
- Higher Education
- Offices

**What is QID™?**

QID™, Quick Intruder Deadbolt Lock, is a method of immediately securing rooms by pressing the red button, projecting a deadbolt and locking the lever.

**Keyless Instant Lockdown**

- No scrambling to find the classroom key, simply press the red button.

**Superior Intruder Protection**

- Full 1 inch throw stainless steel deadbolt and latch
- Deadbolt locking instead of latch

**Visual Indicator**

- The visual indicator notifies occupants that the door is deadbolted and the outside lever is locked.

**Free Egress**

- A single motion retracts the deadbolt and latch from the inside at all times.

**Keyed Entry**

- Staff and first responders can always enter by key.
- No one is ever locked in.

**Additional Features & Options**

- From locking styles, touchbars, to retrofit and new construction, QID series is completely customizable.
- Different functions are available to meet K-12, university, or office needs.

**Certifications**

Fire Door Applications:

- QID-Series locks certified to be used on steel, composite, or wood fire doors, that are listed and rated up to and including 3 hours.
- Maximum Door Opening Sizes: QID-M – 4' x 8', QID-C – 4' x 10'

Applicable Standards:

- NFPA 252 (2012) Standard Methods of Fire Tests of Door Assemblies
- UL 10 (c) (R2015) Standard for Positive Pressure Fire Tests of Door Assemblies
- CAN / ULC S104 (2015) Standard Methods of Fire Tests of Door Assemblies

**Electrified Version Available**

- One press of the teacher or administrator's wireless pendant assures that door is properly secured.
- Lock the door remotely without approaching the door.
- Individual room or full system lockdown options available.

QID™ Cylindrical

QID™ Mortise

**Greater Than A Latch:**

QID™ lock is another leading innovation by Securitech which deadbolts the door, going beyond the standard latch used to secure most classrooms.

**QID™ Lets Teachers Focus On Students:**

One simple push of the red button below the lever assures the teacher that their door is properly secured. This one-step approach allows the teacher to instantly focus on sheltering in place or evacuating.

*Precious seconds and minutes are saved with this system.*

**Safety And Security:**

Teachers or students can instantly secure doors in case of an emergency, without having to search for a key. Staff and first responders can enter by key at any time. QID™ provides instant and maximum protection to doors securing students or employees while maintaining free egress at all times to meet life safety codes.
